Kendrick Lawton

Results-driven automation test specialist. I design resilient automation frameworks tailored to seamlessly integrate with agile development methodologies. Dedicated to minimizing manual testing burdens, thereby facilitating the prompt delivery of quality software.

Education

Arizona State University, Tempe, AZ
Bachelor of Science in Software Engineering (BSSE), Graduated - December 2022

Professional Experience

Clyde & Co LLP, Kansas City, Missouri
Automation Test Specialist, April 2023 – Present
- Design test automation frameworks with Appium, Eggplant, and Selenium.
- Utilize Azure DevOps test management, task tracking, and collaboration during sprints.
- Acquire in-depth knowledge of application functionality, contributing to comprehensive test plans and documentation.
- Collaborate with colleagues, product owners, and product managers to develop test plans, organize testing, and provide valuable feedback to technical teams for project progression within allocated budgets and sprint timelines.

T-Mobile, Kansas City, Missouri
Mobile Expert, July 2019 – August 2023
- Developed strong rapport with customers and created a positive impression of business.
- Used product knowledge, sales abilities and customer relations skills to drive substantial sales increases in consumer and business mobile communication products.
